12510 Prosperity Drive, Suite 160
Silver Spring, MD 20904

Subject: ALGY COP
EPA Registration No.: 7616-68
Notification Date: December 21, 2012
EPA Receipt Date: December 26, 2012

Dear Ms. Griffin,

This letter acknowledges receipt of your notification submitted under the provisions of FIFRA section 3(c)9 and PR Notice 98-10.

Proposed Notification

- Adding alternate brand name : HDX All-In-One Algaecide
- Adding minor label claims (page 2)
- Adding one minor graphic (Page 4, Highlighted)
- Correction re-entry level for Chlorine residual (Page 3, 2 ppm to 3ppm as is standard)
- Adding clarifying reader's notes (Page 4)

General Comments

Based on a review of the submitted materials, your notification to add one alternate brand name, minor label claims, graphics, and correction re-entry level for Chlorine residual under the Directions for Use plus, adding clarity to the reader's notes is acceptable. A copy of this letter has been made a part of the record on file for future reference.

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-6416 or by e-mail at campbell-mcfarlane.jacqueline@epa.gov or Lorena Rivas by telephone at (703) 305-5027 or by e-mail at rivas.lorena@epa.gov. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Jacqueline Campbell-McFarlane

RE: Notification per PR Notice 98-10 to make minor label changes and add an ABN
Product: Algy Cop EPA Reg. No.: 7616-68
Company: KIK Pool Additives Inc.

Dear Ms. Campbell:

On behalf of KIK Pool Additives Inc., I am submitting a notification per PR Notice 98-10 for the product label Algy Cop, EPA Reg. No. 7616-68. The purpose of the notification is to clarify the label and make minor changes. The label on file with EPA used underlines to show language pertaining to the alternate formula. In preparing marketplace labeling, we found this confusing. Therefore we have revised the label to include two sets of directions, one for the basic and one for the alternate, and have eliminated the underlining. The alternate formula has an ingredient that assists the settling of dead algae for easier removal, so slightly different label language is appropriate; EPA recognized this with the previous approved label. We have clarified and moved wording but made no substantive changes to the directions approved previously.

In addition we also are making the following changes:

- Adding the Alternate brand name HDX All-In-One Algaecide
- Adding minor label claims (page 2) and one minor graphic (page 4, highlighted)
- Correcting re-entry level for chlorine residual (2 ppm to 3ppm as is standard)
- Adding clarifying reader's notes

The following documents are enclosed in support of this notification:

- EPA form 8570-1
- One copy of the revised label (changes are highlighted)

If you have questions, please contact me at 301-680-7971 or cgriffin@delta-ac.com.

Sincerely,

Cristina Griffin
Agent for KIK Pool Additives Inc.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product does an effective job of controlling green, blue-green and mustard colored algae growth in swimming pools. [For black algae problems, the use of KEM TEK BLACK ALGAE TREATMENT is recommended.] Follow all precautions, directions and restrictions per their labeling for all pesticide products being used.

- 1) Adjust pH of pool water to 7.2-7.6. Use KEM TEK pH PLUS (soda ash) to raise pH and KEM TEK MURIATIC ACID [or muriatic acid] to lower it. Follow the instructions on the back panel of whichever product is used.
- 2) Add 1 pound of KEM TEK SHOCK QUICK [[or other EPA approved shock product] [, or 3 quarts of KEM TEK KEMKLOR II CHLORINATING LIQUID][or other EPA approved chlorinating liquid]] per 10,000 gallons of pool water to oxidize water soluble wastes. Allow to circulate one hour. (Note: Do not enter the pool until chlorine residual drops to 3.0 ppm).
- 3) Add 10 oz. of this product per 10,000 gallons of pool water. Preferably, dilute the concentrate into one or two gallons of water and apply to the deep end of the pool.
- 4) Filter continuously for 24 hours.
- 5) Remove dead algae by brushing and vacuuming as needed.
- 6) Add 5 oz. of this product per 10,000 gallons of pool water every two weeks as a maintenance dose.

[Directions for use: Alternate Formula Only:]

- 1) Adjust pH of pool water to 7.2-7.6. Use KEM TEK pH PLUS (soda ash) to raise pH and KEM TEK MURIATIC ACID [or muriatic acid] to lower it. Follow the instructions on the back panel of whichever product is used.
- 2) Add 1 pound of KEM TEK SHOCK QUICK [[or other EPA approved shock product] [, or 3 quarts of KEM TEK KEMKLOR II CHLORINATING LIQUID][or other EPA approved chlorinating liquid]] per 10,000 gallons of pool water to oxidize water soluble wastes. Allow to circulate one hour. (Note: Do not enter the pool until chlorine residual drops to 3.0 ppm).
- 3) Using an algae brush, brush algae spots prior to product application. Add 10 oz. of this product per 10,000 gallons of pool water. Preferably, dilute the concentrate into one or two gallons of water and apply to the deep end of the pool.
- 4) Filter continuously for 24 hours. Brush daily for the next few days if necessary to promote penetration of product into algae spots to improve effectiveness. Periodically check available chlorine and adjust if necessary to maintain a 3 ppm minimum during treatment.
- 5) Dead algae may be visible as a gray or white cloudiness. Living algae will have a green, brown, yellow or black color. If algae has color after 24 hours, repeat treatment as necessary for removal.
- 6) Once algae is dead, turn off filter system (including timer) allow 18 to 24 hours for dead algae to settle to the bottom of the pool.
- 7) Remove dead algae by brushing and vacuuming as needed. Backwash the filter. Return filter system to normal operation.
- 8) Add 5 oz. of this product per 10,000 gallons of pool water every two weeks as a maintenance dose.

[In the text "this product" may be substituted for Algy Cop name and/or other alternate brand names]

[[Information in brackets [] is optional or instructional; italics in brackets indicate instructions not part of labeling.]

[Reader's Note: Throughout this label, product names for other similar products (i.e., pH adjusters, stabilizers, chlorinators etc.) may be substituted as appropriate. All oz. may be expressed as fl. oz. or oz.]

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: IF EMPTY: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

TO ESTIMATE POOL CAPACITY

RECTANGULAR POOLS: Length x width x Average Depth (in feet) X 7.5 = gallons.

ROUND POOLS or OVAL POOLS: Average Diameter (length) x Average Diameter (width) x Average Depth (in feet) x 5.9 = gallons
